- **Rhodes Scholar**
- **Worked under President Obama to help our nation lead a global war against ISIS**
- **Served as a strategic adviser to Generals David Petraeus and John Allen**
- **Career public servant, not a political appointee**

Tom MacArthur must be defeated! Even if you don't live in the Third Congressional District, you were probably horrified by Congressman Tom MacArthur's efforts to replace Obamacare. And MacArthur is even worse than that:

- He voted for Trump's Tax Scam gutting the middle class.
- He's opposes reproductive freedom.
- He voted against an amendment to protect military members from predatory lenders.
- He wrote the amendment eliminating the ACA protection for pre-existing conditions in the failed Republican "healthcare" legislation.

But, MacArthur is vulnerable in the next election and we are going to do everything possible to get rid of him. Fortunately, we have an excellent candidate to oppose him — **Andy Kim**. Andy grew up in Kings Grant in Marlton. Unlike MacArthur, a former insurance executive who is one of the richest members of the House of Representatives, **Andy Kim** says that neither he nor his parents ever earned an income more than five figures. **Kim** is brilliant, sensitive, passionate, articulate and unabashedly liberal. He is the real deal. And he has already received donations from 48 out of 50 states because even the folks in South Dakota hate MacArthur as much as we do. **But to be considered a credible candidate, he needs to raise even more money before December 31.**

MacArthur is so worried that he already has attack ads ready to run against **Andy Kim**. Let's make him even more worried!! **Please send a check in any amount payable to Andy Kim for Congress to P.O. Box 211, Marlton, NJ 08053.** If you can volunteer to work on **Andy's** campaign, please contact Eileen Hill (eileen.g.hill@gmail.com).

This is something we can, and should, do. Please help in any way that you can!!
